Address: 120 Centennial Ave., Piscataway, NJ 08854, USA

GenScript is a contract research organization (CRO) specialized in biological research and drug discovery services. Its service portfolio includes bio-reagent services, assay development & screening, lead optimization, and antibody drug development. Headquartered in Piscataway, New Jersey, GenScript has become a leading Biology CRO and leading gene synthesis supplier in the world, with subsidiaries in France, Japan, and China.

As The Leading Biology CRO:

- The largest biology contract research organization (CRO) with major operations in US and China
- The leading gene synthesis provider in the world.
- One-stop biology CRO services focusing on drug discovery in small molecules and biologics
- Seasoned scientific and management team

As a Reliable Partner:

- Full client IP protection
- ISO certified, cGMP compliance, and AAALAC accredited
- Flexible business models: Project-based, FTE-based, and Strategic Alliance

GenScript Service Modules:

Bio-Reagent Center

- Custom Gene Services
- Custom Protein Services
- Custom Peptide Services
- Custom Antibody Services
- Custom Cell Line Development

Bio-Assay Center

- Assay Development
- HTS Assay Conversion
- Primary Assay
- Specificity Assay
- Secondary Assay
- Compound Screening

Lead Optimization Center

- Lead Optimization
- Discovery Biology

Antibody Drug Development Center

- Antigen Production
- Hybridoma Generation
- mAb Sequencing
- Antibody Humanization
- Affinity Maturation
- Bioprocess and Antibody Production

Frank Zhang, Ph.D., CEO

CEO's Statement

GenScript USA Inc. was founded in 2002. Ever since its inception, GenScript has experienced rapid, constant, and organic growth. Now GenScript has become a leading biology contract research organization (CRO) in the world, with a global operating team of over 700 dedicated scientists, staffs. Looking forward, we will continue to deliver high quality services in a cost effective and timely manner, and to help accelerate the discovery and development of innovative medicines by integrating our services into clients' operation and pipelines seamlessly. With the high-profile \$15 million investment from KPCB and TBIG Healthcare, our drug discovery and development service lines will be further expanded. I believe that GenScript is poised toward rapid growth and exciting future.

About Investors

KPCB began investing in and helping build life science companies in 1977 when it was the founding investor of Genentech. Since then, KPCB has backed entrepreneurs in over 475 ventures, including AOL, Amazon.com, Compaq Computers, Google, IDEC Pharmaceuticals, Sun Microsystems, Symantec, and Verisign. More than 150 of the firm's portfolio companies have gone public. Many other ventures have achieved success through mergers and acquisitions.

TBIG Healthcare is a division of The Balloch Group ("TBG") and is co-owned by Shipston Group Limited (SGL). TBG is an advisory and merchant banking firm serving both domestic Chinese and international firms, ranked the leading boutique investment bank in China by ChinaVenture in 2008.
